HyperionDev

Your Future In Tech Starts Here

Remote Work | Great Salary | Rewarding Career

HyperionDev

HyperionDev is your key to a future-proof career

You don't need to spend four years and half a million rand at university to become a successful, high-earning software developer. HyperionDev's specialised coding bootcamps will teach you real, practical skills in Software Engineering, Web Development, or Data Science, to get you on your way to a career in tech in 6 months.

HyperionDev

Our courses

Study flexibly, either 3 months full-time or 6 months part-time to become a Web Developer, Data Scientist or Software Engineer.

Full Stack Web & Software Engineer

Learn how to make stunning websites and complex software applications in our advanced Immersive bootcamp.
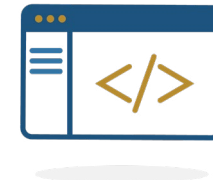

Software Engineer

Learn to make and work with powerful software apps for a wide range of different technologies

Data Scientist

Learn to work with and understand data on a deeper level, to fasttrack research or improve business

Full Stack Web Developer

Learn how to make beautiful websites with complex functions for business or personal use.

HyperionDev
